Reproductive effects	have be	en obser	ved on te	ests wit				· .			· .
Subacute to chronic t	oxicity:										

Exposure to indium compounds may cause pain in the joints and bones, tooth decay, nervous and gastrointestinal disorders, heart pain and general debility.

Experiments with animals also indicate that indium may cause reduced food and water consumption with weight loss, pulmonary edema, pneumonia, blood, liver and

kidney damage, leg paralysis and damage to the brain, heart, adrenals and spleen.

Inorganic phosphorus compounds may cause irritation and hemorrhages in the stomach as

well as liver and kidney damage. Bone structure may be attacked, especially the jaw and teeth. Subacute to chronic toxicity:

The Registry of Toxic Effects of Chemical Substances (RTECS) reports the following effects in laboratory animals:

Lungs, Thorax, or Respiration - other changes.

Lungs, Thorax, or Respiration - fibrosis (interstitial)

Lungs, Thorax, or Respiration - tumors.

Lung, Thorax, or Respiration - changes in lung weight.

Endocrine - changes in spleen weight.

Blood - changes in other cell count (unspecified)

Blood - changes in serum composition (e.g. TP, bilirubin, cholesterol).

Biochemical - Enzyme inhibition, induction, or change in blood or tissue levels - dehydrogenases.

Biochemical - Metabolism (Intermediary) - effect on inflammation or mediation of inflammation

Reproductive - Paternal Effects - testes, epididymis, sperm duct.

Reproductive - Paternal Effects - prostate, seminal vesicle, Cowper's gland, accessory glands.

Additional toxicological information:

To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

Other regulations, limitations and prohibitive regulations

Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed.

The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed.

Substance is not listed.

Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed Chemical safety assessment:

A Chemical Safety Assessment has not been carried out.

SECTION 16. OTHER INFORMATION

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH). The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.
