Endocrine Disruptor	Information	No information av	railable						
Other Adverse Effect	S	The toxicological	properties have no	t been fully in	vestigat	ed.			

12. Ecological information

Ecotoxicity Do not empty into drains.

Persistence and Degradability	Insoluble in water		
Bioaccumulation/ Accumulation	No information available.	i i i	
Mobility	Is not likely mobile in the environment due its low water solubility.		 :

Aluminum silicate

13. Disposal considerations

Waste Disposal Methods

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.
