2. Hazard(s) identification					· .				
Physical hazards	Not classified.								
Health hazards	Not classified.								
Environmental hazards	Not classified.								
OSHA defined hazards	Not classified.	· · ·						'	
Label elements									
Hazard symbol	None.			1	· · ·		·	· .	
Signal word	None.								
Hazard statement	The mixture does no	ot meet the cri	teria for clas	sification.					
Precautionary statement					14			14.0	
Prevention	Observe good indus	trial hygiene p	oractices.						
Response	Wash hands after ha	andling.							
Storage	Store away from inc	ompatible ma	terials.						
Disposal	Dispose of waste an	d residues in	accordance	with local a	uthority r	equirements	3.		
Hazard(s) not otherwise classified (HNOC)	None known.								
Supplemental information	None.	· · · ·			1.			· .	

# 3. Composition/information on ingredients

Mixtures

Chemical name			Common na	me and s	synonyms	CAS number	%
ZIRCONIUM SILICATE						14940-68-2	90 - 100
Impurities	'		111				111
Chemical name						CAS number	%
URANIUM (NATURAL)						7440-61-1	0.026
THORIUM (NATURAL)						7440-29-1	0.018
Crystalline Silica						14808-60-7	<.99

**Composition comments** 

Occupational Exposure Limits for impurities are listed in Section 8. Zircon contains naturally occurring radioactive elements of the uranium and thorium series. The zircon sands in this product contain low concentrations of these impurities, with typical specific activities of 0.6 to 1.2 Bq/gm (thorium-232) and 1.5 to 4.5 Bq/gm (uranium-238).

4. First-aid measures Inhalation Move to fresh air. Call a physician if symptoms develop or persist. Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists. Rinse with water. Get medical attention if irritation develops and persists. Eye contact Ingestion Rinse mouth. Get medical attention if symptoms occur. Most important Direct contact with eyes may cause temporary irritation. symptoms/effects, acute and delayed Indication of immediate Treat symptomatically. medical attention and special treatment needed Ensure that medical personnel are aware of the material(s) involved, and take precautions to General information protect themselves. 5. Fire-fighting measures Suitable extinguishing media Powder. Dry sand. Do not use water jet as an extinguisher, as this will spread the fire. Unsuitable extinguishing media

During fire, gases hazardous to health may be formed.

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Use water spray to cool unopened containers.

Use standard firefighting procedures and consider the hazards of other involved materials. No unusual fire or explosion hazards noted.

### 6. Accidental release measures

Specific hazards arising from

Special protective equipment

equipment/instructions Specific methods

General fire hazards

and precautions for firefighters

the chemical

Fire fighting

Personal precautions,<br/>protective equipment and<br/>emergency proceduresKeep unnecessary personnel away. For personal protection, see section 8 of the SDS.Methods and materials for<br/>containment and cleaning upStop the flow of material, if this is without risk. Following product recovery, flush area with water.<br/>For waste disposal, see section 13 of the SDS.<br/>Avoid discharge into drains, water courses or onto the ground.

#### 7. Handling and storage

Occupational exposure limits

Precautions for safe handlingAvoid prolonged exposure. Observe good industrial hygiene practices.Conditions for safe storage,<br/>including any incompatibilitiesStore in original tightly closed container. Store away from incompatible materials (see Section 10<br/>of the SDS).

#### 8. Exposure controls/personal protection

**Respiratory protection** 

In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.	
pecific target organ toxicity - ingle exposure	Not classified.	
specific target organ toxicity - epeated exposure	Not classified.	
Aspiration hazard	Not an aspiration hazard.	
Chronic effects	Prolonged inhalation may be harmful.	
2. Ecological information	on	
cotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environmentation of the envit of the environmentation of the env	
Persistence and degradability	No data is available on the degradability of this product.	
Bioaccumulative potential	No data available.	
lobility in soil	No data available.	
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.	
3. Disposal considerati	ons	
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.	
ocal disposal regulations	Dispose in accordance with all applicable regulations.	
lazardous waste code	The waste code should be assigned in discussion between the user, the producer and the was disposal company.	ste
Vaste from residues / unused roducts		
	Since emptied containers may retain product residue, follow label warnings even after contain	er is r

#### URANIUM (NATURAL) (CAS 7440-61-1)

US. Rhode Island RTK

Not regulated.

#### **US. California Proposition 65**

WARNING: This product contains a chemical known to the State of California to cause cancer.

US - California Proposition 65 - CRT: Listed date/Carcinogenic substance

Crystalline Silica (CAS 14808-60-7)

Listed: October 1, 1988
